Micro-transit Pilot Service

BRTA is proposing **specific changes** to introduce this new service, including:

Definition: *“Micro-transit” is a form of public transit service that operates with smaller vehicles, between specific origins and destinations booked by a customer. Customer must pre-register with the Authority before booking trips on service.*

This service will be marketed differently from traditional fixed route and ADA paratransit services.

For the Pilot Program:

- Hours of Operation within limited test area: Monday – Friday from 7:30 am – 7:30 pm
- Requires use of RMPay for fare payment on-vehicle. No cash or Charlie Card accepted on micro-transit vehicles.
- Available to any customer over 16 years of age, if travelling by themselves. *If younger than 16, customers must travel with a companion who is over 16 years of age. Must have same origin and destination.*
- Requires pre-registration with the Authority, BRTA will review and approve registrants
- Customer trips must have both an **origin and destination within the pilot service area**
- Customers must book their trips at least 2 business days (including Saturday) in advance of service date
- Customers must book trips through the existing paratransit call center system (413-499-2782 ext. 3)
- Customer trip purposes initially limited to work or medical appointments for the pilot program.
- All vehicles operate as shared ride with multiple customers on board. Trip durations will be as reasonable as possible; however, no minimum is guaranteed for the pilot program. The goal would be for intown trips no longer than 30 minutes.
- All other current BRTA service rules/policy apply and all customers subject to the BRTA Customer Code of Conduct www.berkshirerta.com/plan-your-trip/rules-policies/
